## **Getting Ready** To "Go Places"

Freedom of movement is one of our most precious liberties. And with Spring already peeking over the horizon a lot of folks are getting ready to "go places."

Get out with the rest of the world this summer. Get a good car—it's the first requirement. Come in and let us show you the new Pontioc or McLaughlin-Buick. They are cars that will thrill you. Or select one of our fully reconditioned late model used cars.

If you own a car that you want to drive the rest of the yegr, give it a chance to be dependable, efficient, safe and economical. Our big modern service shop every day is making old cars give new performance and at little cost to their owners. Get ready "right" to "go places."

#### BIG LIQUOR BILL

Napauce's liquor bill for last year was \$109.000, according to the Beaver of that place, which suggests that the bill is too large for the size of the town. The Beaver admits that Napauce folks alone did not use that amount of liquor, folks from the lural sections being responsible for some of it, but it calls attention to the fact that of it, but it calls attention to the fact that the amount-of money spent in one year in Novames for liquor was more than the total amount of taxes paid in to the town treasury in the same twelve months. This much can be said one to follow the folks paid over their mone of liquor a lot more cheerfully than they did the tax

Sara Van Alstyne Allen in New York Times.

BELLEVILLE NEEDED A CLEAN UP? according to some bright merchandisers in Toronto and they sent a crew of young according to some bright necronaustreal in Toronto and they sent a conscious hast Saturday. The lads worked the outskirts with autos and baskets and even soid soap outside of groceries paying business. Lax, properly tax, income tax and all the other big and little taxes assessed to make Belleville a better place to live the property tax. Income tax and all the other taxes. Complaints made to the police did not interrupt the soap trade—for anything made in Ontario can be sold in Ontario without let or hindrance, and apparently without license or fee of any kind, according to local interpretation of provincial law. Seeman be devided to cover such situe, stafficient at least to discourage any visitations from transient traders from Toronto or other places who do business on Toronto or other places who do business on onto or other places who do business on ne sidewalk or the front steps of the resi-ential section.

WITHIN THE SOUND OF HISTORIC

WITHIN THE SOUND OF HISTORIC BOW BELLS, and the sound of many deep-toned old and rich cathedral bells of Old England a sarrligious proposition has been made which could only have eman-tack from a Xunke emoney-mad, efficiency crazed brain—nothing less than to abolish the bell-lingers of Old England and substitute mechanical contrivances. This proposal ever aboxed the staid, respectable proposal ever aboxed the staid, respectable which discusses the situation as follows:

Through London advices, citizens of the United States of America are informed of a proposal to do away with the

ed of a proposal to do away with the services of England's three thousand bell ringers by installing gramaphones and amplifiers in the belfries of religious edifices. And, as may be expected, members of their ancient and honorable calling.

of their ancient and honorable calling.

But far be it from them to use the
tools of their trade as a tocsin, summoning a placid countryside in defense
of their threatened vocation; rather
they sound a cautious note. On behalf of they sound a cautous note. On behalf of British church members, and with a re-straint typical of centuries of secular service, a spokesman for the Guild of British Bell Ringers voices his lack of approval: "Synthetic church music is an American importation—we cannot wel-

come it. "American importation" was proposed for St. John's Church at Weymouth, and in order to clear up any
mispprehension among residents of
that community it should be emphasized that 'camend' bell ringing is the
United States and that in most of America worshippers continue to be summoned by the bells as in Pilgrim Father
days. And to the remainder of England,
it will be heartening to reflect that in
people to worship by means of bell ringing shows scant sign of waning. "American importation" was pro-

.. that was on March 26, 1870"

# YEARS AGO THE DAILY ONTARIO WAS BORN

It's a long, long trail, looking backward. That goes for newspapers as well as for men. Let's pause for a moment and see how far we have come . . .

The first issue of the Daily Ontario was printed 67 years ago. That was on March 26, 1870, it was printed on a flat-bed steam press (quite a wonder in its day, too.) Copy for that first issue was written in poscil and set by hand. There wasn't a typewriter, a telephone or a linotype machine in the Ontario office.

Our first issue makes fascinating reading today. It is like a history book viridly written in the present tense. Burning questions, long forgotten, come to life as you scan through the close-packed pages. The "new" buildings, many still standing and huse. Front Street, a dust trough in summer, a mud hole in winter"—Its paving in 1914 filled a good many columns.

Politics were taken stremuously in those days when the infant Daily Ontario was born and strong language was used in editorials and "Letters to the Editor", in strong courtrast to the independence displayed today by both paper and public.

Those were the days when the "pot of gold at the foot of the rainbow" was asought anidooutly by many in Hasings County and many promising prospects overwed in Marnors, Madoc, Elsevir and Hungerford, while "El Dorado" was amagent for fortune hunter.

In 1870 the Red Kiver Robellion made news and Louis Rell was "Front Fags."

First advertisers in the Daily Ontario of 1870 included:

G. C. Holton & Co., dry goods, carpets,

George Ritchie & Co., dry goods, etc. James W. Dunnett dry goods and gro-ceries, known as "The Glasgow Ware-house."

Nathan Jones, dress goods, etc.

- C. V. Bogart, shoes.
- J. A. M Gilbert, sash and door factory.
- Louis Roenigk, undertaker.

Robertson & Henry, dry goods. Mrs. Membery Millinery.

J. C. Holden, chemist and druggist. Brown & St. Charles, carriage migs. Walter Fanning, livery stabl.e

W. Dickens, refreshment rooms, wedd

10

- G. S. Tickell, furniture, undertaker, etc. Conger Bros. toas, spices and coffees. J. S. Mendell hatters.

After 67 years the Daily Ontario (now Ontario Intelligencer) wears its years lightly. We feel that these are good times to live in. We look forward confidently to a greater Belleville and to a future that will offer us opportunities for public oser-vice as yet unsuspected.

Many interesting happenings affecting the growth and prosperity of Belleville and Canada occurred during these 67 years of daily newspaper history, all duly recorded in this newspaper. The Weskly Ontario Chronicle goes back to 1837, one hundred years, while the Weskly-intellig-gencer dates even farther back.

Recently, four pairs of leading makes of cars were frozen for hours atop Montreal's Mount Royal at Westmount Lookout. One of each pair was filled with Blue Sunoco. The other was serviced with one of four leading makes of extra priced gasolines. Blue Sunoco's average starting time was three times as fast as the premistm gasolines.

# You don't need to pay 20 to 21/20 extra for dependable, sure-fire starting!

Remember-every detail of these tests was conducted under the supervision of the Canadian Automobile Association! Everything was absolutely fair and square. And regular priced Blue Sunoco beat the four extra priced motor fuels in quick starting at midwinter temperatures. Not only started these cars in faster time—but over three times as fast. See timing chart.

to build small 4-cylinder cars in order to assure economy. Henry Ford built and sold small 4-cylinder cars — in large quantities. But when the fast-growing facilities of the Ford Motor Company reached a point where it was possible to build larger, finer.

For 1938, two Ford cars are offered you. One is the De Luxe Ford, in 8 body types, with the 85-horsepower V-8 engine — still with the BS-horsepower V-8 engine — still an economical car to own and operate. It has richer appointments, and the closed sedans have longer bodies, with more room. The other is the Standard Ford, which

What can be done to conserve this reserve power of the heart so that it will not be exhausted too soon!

It will not be exhausted too soon?

It is work or exercise that uses up the power of the heart, but some work or exercise must be done required to the property of the power o

Another important point in con-serving or saving this reserve power of the heart is to avoid excitement and other emotional disturbances. Still another is to avoid heavy meals which call upon the heart to do much extra work and carry on its ordinary work also.

are made up of what PEOPLE say, think, propose, dissent from. Governments, institutions, businesses-and all their activities—are only the lengthened shadows of MEN!

What is true on the front pages is true, also, on the advertising pages. Advertisements are simply signed statements of MEN, banded together to form a business, who seek your patronage. They back their good NAME against the products they ask you to buy. They say, in cold black type, that theirs is a name you can trust.

People who get the most for their money in the marketplaces are people who know the value of familiar, trademarked products. They buy with confidence. They buy by NAME-and save time, tiresome searching, and money! Are you doing likewise?

## "Take Your Time," says mrs. Picobac

It is the considered and declared opinion of Mr. Picobac that if it were not for Mrs. Picobac he, Mr. Picobac, would not amount to much. She is the ballast and the motive power of the Picobac ship, and the compass, too, on many an occasion.

"You eat too fast," said Mrs. Picobac. "You should give yourself time to finish your breakfast,"

"Now mother," chuckled Mr. Picobac, who very will pleased with the state of his digestion was busy filling his pipe from a Picobac "SEALTIGHT" Pouch—"Don't you worry about me. I'm not losing any weight. You never see me snoke when I'm esting."

"What are you doing now?" said Mrs. Picobac,

"I'm waiting for you to pour me another cap of coffee," said Mr. Picobac. "And after I finish that I'll be all ready for a mild....cool..., sweet amoke. There's nothing better for a man's disposition after a square meal than a mild....cool..., cool..., sweet amoke of Picobac."

That Body Dours

Value of a Good Breakfast One of the mistakes that nake as a nation is to forget reakfast means breaking our hat after 14 hours without forclock in the evening to 3 on the morning—the whole bo Early in the morning the temper sture is down to 80 or 97, the bloo ressure is down 10 to 20 point and the pulse rate is down 4 to beats. All the body process sant atmulation or starting f the day's work and only food or give them the proper start.

give them the proper start.

That is why a good breakfast-is so mecessary. Of course the man or woman who does physical work—the farmer, the factory hand, the boundedness of the country of the country

However it is hard to convince the business man or business women, the clerk and stemographer, that they need a good stred breakst. They state that they wish to feel keen minded for their work and that a large breakfast is apt to "sink" them mentally.

As a matter of fact, if they arose a few minutes earlier, are 'their' reachtait leisurely, and did not hurry away, they would find that the breakfast would be almost completely digested by the time they did not they are ready to commence work in office or home.

all this is necessary to add to the usual creent, coats, marmalade and development of the coats of the coats

So break your fast with a sized breakfast even if it in getting up a little earlier is morning. Growing children pularly need a good breakfast

Poems That Live

THERE is an A-BS to egg buying—for it is I required by law that all eggs offered for sale in tend stores must be graded according to standards established by the Dominion Coverment. These gradesare clearly marked on the containers—Grade "A" (in three sizes: Large, Medium and Puller; but of equal quality)—Grade "B"—and Grade "C."

Eggs represent a most valuable item in almost every det. Consequently, of great importance is the fact that it is thus made easy for you to buy eggs with assumore that quality and size are as desired—that value is in accordance with the price you pay. Lool for the Grade Mark—and be sure!

This is to suggest that you will do well to consider us when you are in the market for a used automobile. There are a number of good reasons we believe why you will find it more pleasant and profitable to buy a Used Car here than in many other places where used cars are sold.

As you know, the price of a used car means nothing unless the quality of the car also is taken into account. Here we sell quality If its Our prices are competitive as you will find, but you must own and drive one of our cars really to know how much more than the average you get here per dollar of price.

A great many people have purchased used cars from us in the post year. We value the good will of our used car catomers alone only other single set in this business. We expect production to sell used cars to them and their friends. That's why ye make sure that everyone shall get losting sofisfaction in ownership.

Come in at your convenience and look at our used cars. Let us tell you about them. We have an unusually fine assortment now. Prices are lower than usual, but the quality is always the same.

# Ford Economy is Offered in Two Distinct Series of Cars This Year

ECONOMY was just another word in the dictionary until Ford made it an automobile fact. In 1938, as in 1908, the name Ford and the word economy still stand for the same thing in the automobile field.

This year you have a choice of two distinct lines of Ford V-8 cars. The De Luxe Ford V-8 is new—designed for motorists who want to pay a little more for greater luxury. Its de luxe appointments set a new standard of richness in the low-price field. Longer and roomier, it's the largest Ford V-8 ever built. There is extra roominess in De Luxe closed sedans. The De Luxe offers you a choice of eight body types.

\$30 A MONTH, with reasonable down-

Newly styled, the Standard Ford V-8 is also a big car. Its lines and appointments are alto-gether modern. It is offered in three body

types. It is lower in price than the De Luxe.

A word about the 85-horsepower engine that powers both these big, handsome cars. It provides, in one power-plant, all the brilliant performance and reliability features that have made the V-8 famous, with a high standard of economy . . . owners in every section of the Dominion have reported from 22 to 27 miles per gallon.

For modern performance and real economy, you want a Ford V-8! . . . See your Ford dealer.

hope that the idea of Control will supplant the idea that law can make men temperate.

For excess and abuse are as much the enemies of our industry as they are the enemies of the law.

If dependence is placed on restrictions, the experience of Prohibition will be repeated. Restrictions from the outside which refuse the individual the right to exercise his own judgment provoke resistance.

Excess and abuse by the individual can be curbed only by the exercise of his judgment.

Thus the fundamental principle of Control is that the drinker, NOT the drink is the problem!

### The Human Side - for 1937

 $\mathbf{I}^{\mathrm{F}}$  WE WERE to let the figures to the left describe the Metropolitan's activities  $\mathbf{I}^{\mathrm{hst}}$  year, the story would be far from complete – for there is a HUMAN side of the ledger, too.

Policyholders and beneficiaries received from Metropolitan in 1937 almost \$526,000,000 - much of it in an hour of genuine need.

Death claims were paid on 6,107 policies in force less than three months, and on 18,562 policies in force less than one year – dramatic proof of the value of life

One could, scarcely name a catastrophe which took human lives, in the United States or Canada, where funds provided by Metropolitan policies had not helped lighten the burden for afflicted families.

Each day, visiting nurses representing the Metropolitan ministered to persons insured under Industrial, Intermediate, and Group policies who were in need of skilled care. These nurses made 3,766,240 calls during the year.

Every half second during 1937, a, Metropolitan booklet, containing useful health information, was placed in somebody's hands.

Each working day throughout the year, new Metropolitan investments went into communities in various parts of the United States

and Canada. These investments helped to create a demand for goods, aid realty values, give employment, and serve other modern social and economic needs.

There is more we would like to tell you about our 3937 Report. This is contained in a booklet entitled "The Human Side of the Ledger", which we shall be glad to send to you upon request. Use the coupon below

### In Canada-

These highlights of the Company's business in the Dominion (having been included in the above statements) will be of particular interest to Metropolitan's Canadian policyholders and their beneficiaries.

The total amount of Metropolitan life insurance in force in Canada at the end of the year was \$1,126,789,608 of which \$613,417,019 was Ordinary; \$414,800,062 was Industrial and \$98,572,527 was

The total number of nursing visits made without onal cost to our Canadian policyholders during 1937 was 363,644.

Payments to Metropolitan policyholders and bene-ficiaries in Canada during 1937 were \$29,319,475.67. \* \* \* \* \*

### THE IDES OF MARCH

"The Idea of March, remember!"
One of the genotest events in all history courred meanly 2000 years age today in the imperial city of the ordent world, Rome, the proud bone of the greet Lain. Note. That figure in world political history, Julius Coestra, statesman, soldier, commonder, political leader, writer and cortor. He fell in a republican compisory of oristorates set affoot to hold back the progress of oristorates set affoot to hold back the progress of oristorates set affoot to hold back the progress of oristorates set affoot to hold back the progress of oristorates set affoot to hold back the progress of oristorates and store to hold back the progress of oristorates and store to hold back the progress of oristorates and store to hold back the progress of oristorates and the lived, might have turned the entire tide of history. As It hums do until the complication of setting of the control of coestra and the beginning of the region of emperors. Octavious become the Emperor Augustus and for centuries the emperor nide, but it was a stronge extent of men "The Ides of March, remember!"

peror Augustus and for centuries the enjoyen ors ruled, but it was a strange series of men who held the imperium, or rule. Since that fated fifteenth day of March, when the great Julius fell, the warning phrase has been in politics, "Beware the Ides of

March", a time since then this woming has been repeated on this day. Today in this poor their poor to this day. Today in this poor this day. Today in this poor this day. Today in this poor the repeated on this day. Today in this poor this day. Today in this poor the repeated th

nigh;
The bitter wind makes not the victory vain,
Nor will we mack thee for thy faint blue
sky."

Wordsworth says of March:

Workworth says or March:

"Like an army defeated
The snow hath retreated,
And now doth fare ill
On the top of the bare hill;
the Pisuphboy is whooping anon-anon!
There's joy in the mountains;
There's life in the fountains, Small clouds are sailing, Blue sky prevailing; The rain is over and gone."

While March differs in various parts of the northern world, there is enough of unity in the sense of relief and freedom which the month brings.

### Suggest Cabinet Resignation

The Associated Press said:

"Labor party circles discussed the possibility of Prime
Minister Chamberlain's resignation within 48 hours in favor of an intering government, to be helded by his prewar. Chrychill's name was also mentioned as a possible
successor to the premierahip should the cabinet fall. His
suring stand in favor of collective security and the League
of Nation was said to have swung Labor and Liberal sentiment towards him.

## If you want to hide . . .

We can't help you-but if you want your products widely and favourably known in Canadian homes we can certainly do a lot.

Morning, noon and night people in every walk of life are anxiously, eagerly reading their newspapers. Every one has a consumer and potential customer.. Nothing escapes them. One small advertisement will arouse their interest in your business and other advertisements will keep that interest aroused, and couse them to buy.

There are 11,000,000 people in Canada, whose lives are steadily influenced by their daily newspapers. Newspaper advertising is the easiest, quickest and surest way to reach all or any group of them.

We can't help you-but if you want your products widely and favourably known in Canadian homes we can certainly do a lat.

Morning, noon and night people in every walk of life are anxiously, eagerly reading their newspapers. Every one has a consumer and potential customer. Nothing escapes them, One small advertisement will arouse their interest in your business and other advertisements will keep that interest aroused, and cause them to buy.

There are 11,000,000 people in Canada, whose lives are steadily influenced by their daily newspapers. Newspaper advertising is the easiest, quickest and surest way to reach all or any group of them.

"WE LOOKED at all the low-priced ears . . . but one ride in the new Chevrolet and the whole family agreed, 'Here's our carl'

"Of course, we all fell in love with the style of it at a glance. Inside and out, Chevrolet for 1938 changes all your old ideas of beauty and luxury in a low-priced car. "Before we'd driven a mile, my husband was thrilled at the way we could flash shead of traffic, yet pull up in a jiffy if need be.

"But what thrilled me is Chevrolet's "Knee-Action gliding ride, so so restful for back-cest passengers . . the comfort and safety of the All-Steel Fisher Body with its Safety glass and No-Draft Ventilation.

"I could name a dozen other advantages we found only on Chevrolet. But my tip to you is . . . go see your Chevrolet dealer, see and drive the car for yourself! Chance are you will decide as we did, 'It's Chevrolet for us!"

Are You Buying

Just an Automobile

Did you ever stop to think about the fact that when you buy a car you also buy an automobile dealer.

Some day, somewhere, sooner or later every one who buys an automobile must seek the coursel, the services, or the aid of an automobile mainten-ance expert.

Knowing that, we always have kept ourselves fully prepared to render to our car owners every ad-sistance or service that they ever will require. Not wholly because there might be a profit in maintenance operations, but principally because the sale of new and used cars through our establishment depends upon the satisfaction of old owners.

When you step out to buy your new car or a used car, give a little consideration to this thought: "Who is going to have the most sincere and respon-sible interest in my satisfaction in ownership?"

Those who buy a new Pontiac or McLaughlin-Buick here never will be dependent upon the con-venience or the questionable efficiency of service factors whose sole interest in the matter is the profit from such service. Our owners line of the can backed by a very ample responsibility for

# March...March... April, May and June!

Springtime is here . . . Summer is coming fast. Don't let Mother Nature get too for ahead of you-decide for yourself to arow and be alorified-indoors as well as outdoors. Plan now to bring the whole home in step with the season by repairs and renewals you've wanted all winter.

All the stores are full of what-it-takes! For example how about new curtains upstairs, and fresh clean windowshades to let in the sunlight, gay and thirsty new towels, new linoleum for the kitchen floor? A little painting? A little papering? . . . Really, the whole house needs dressing up, new this and that-you know what and where.

Naturally, you want to make your money go as far as possible. So follow this paper regularly for useful buying tips. The advertisements will show you what to buy, tell you why and how, save you good money every time-and help you live more happily. Read them carefully, every chance you get!

A—quality and size—it should be realized that eggs are graded according to standards established by the Dominion Government and are sold by grade.

Eggs represent a most important item of nourishment in almost every diet, and this grading gives the purchaser every assurance of quality and size desired; for it is required by law that all eggs sold in retail stores must be graded and the container marked with the grade name. (°) GRADE "A"

The grades are: Grade "A" (in three sizes: Large, Medium and Pullet; but of equal quality) — Grade "B"—and Grade "C."

# March ... March ... April. May and June!

Springtime is here . . . Summer is coming fast. Don't let Mother Nature get too far ahead of you-decide for yourself to grow and be glorified—indoors as well as autdoors. Plan now to bring the whole home in step with the season by repairs and renewals you've wanted all winter.

All the stores are full of what-it-takes! For example about new curtains upstairs, and fresh clean windowshades to let in the sunlight, gay and thirsty new towels, new linoleum for the kitchen floor? A little painting? A little papering? . . . Really, the whole house needs dressing up, new this and that-you know what and where.

Naturally, you want to make your money go as far as possible. So follow this paper regularly for useful buying tips. The advartisements will show you what to buy, tell you why and how, save you good money every time—and help you live more happily. Read them carefully, every chance you get!

### A GRAND BIG CAR in everything but price! pride of ownership, the De Luxe Ford sets a new high for the low-price field.

De Luxe prices are especially reason-

able when you realize that they include

a great deal of equipment for which you

are often asked to pay extra. . . . The

newly styled Standard Ford V-8 is even

lower priced. Because both cars are

Fords, you know that whatever you pay,

you'll get good measure for your money.

THE DE LUXE FORD V-8 looks new and is new - in every flowing line. It looks big and is big - in performance and value. The De Luxe was designed for a defi-

nite group of customers - folks who liked the basic Ford features, but wanted a little more size and style. We've put in everything they asked for. The De Luxe is richly appointed, in-

side and out. Closed sedans have longer bodies and larger luggage space. The V-8 engine under the hood develops 85 smooth-flowing horsepower and gives 22 to 27 miles on a gallon of gas, as owners report. In comfort, performance and

# Let's be sure which are Weeds!

What are the real reasons that the cause of true temperance sometimes seems to grow so slowly?

There are four which every fair-minded man will recognize . . .

ONE: A failure to recognize the fact that a control law is designed for the control of those who drink—and not to please those who object to drinking, even in moderation.

Two: The excesses of the few whom prohibition taught how NOT to drink! THREE: The lack of successful control in the areas under local option!

Four: The misguided efforts of ex-tremists, sincere and insincere, to discipline rather than educate our own-generation!

For no law which aims at making people "good" against their will will ear do anything but the opposite! Every man open-minded enough to read a simple-lesson of history must admit the fact. Prohibition itself taught it!

The present law merits the support of

all who are truly interested in good citizenship. Why? Because in human terms it is a sound law. It takes men and women as they fare. It gives them freedom of choice till they have proved themselves until to exercise it. It gives men and to exercise it. It gives men and point, but never beyond the point, white men had not been always to be the point, but never beyond the point white point, but never beyond they fall this way.

Let those who want to pull things up be sure which are the weeds!

Written for the Ontario Intelligencer by Arthur L. Burke

I've heard folks say a farmer's trials

His life is one of joy complete; His pockets bulge with money, An all night's sleep is what provides

He doesn't leave a nice warm bed When whistles blow next day; There is no time clock he must punch, No shortage in his pay.

He walks the hills much like a king, A monarch's right has he, The pride of ownership is his,— Of valley, hill and tree. ship is his,—

# Does home need a "face lifting"?

Sometimes homes, like people, are taken for granted and signs of weariness go unnoticed. Homes, too, need beauty treatments. They come out of them renewed, refreshed, stimulating once more to all who meet them.

Early Spring is the time to plan "face lifting" of the rooms in which you live. Carefully planned, a little money now can go far. Fortunately, authentic news of the latest, the best designed, the most economical in home furnishings and accessories is printed for you day after day on these pages. National manufacturer and local merchant advertise TO HELP

Perhaps slip covers on devenport and wing chair will make faithful but a little weary pieces look like new. Perhaps Summer draperies will make your living-room so fresh and gay that you yourself will hardly know it. A new rug may be the prescription that your home needs. A new lamp can light more than a corner—it can shine into the hearts of all who see it. Glassware, a new table, parch furniture, all can enter into your home's face lifting.

Look about your home as if you had never seen itfollow the advertising on these pages!

He declared that in the event of war movement of civilians might be permitted from the cities, because of interference with the very practical task of handling the movement of troops. re he warned Italian civilians not to wait until the "twelfth hour" to think af safety in the smaller centres. Perhaps this fear will keep to stave off war.

The Italian have always been very hard-haded and outshine the more sombre Germans in this regard. No such reference has been heard from Hiller.

I Mussolin's speech before the 400 Black-shired sensitors in the city which have shired sensitors in the city which have shired sensitors in the city which had and when so the sarry day of Rome's imperial might was stringly practical from the Italian viewpoint. He voiced a very real might was twing part of the continent, as it might well be litter the horrors of air ratio in China and in Barcach had been and the same with the same with the horrors of air ratio in China and in Barcach had been depended in the same with the horrors of air women, or playing children tell a sickening slory. #### EXIT MARCH

March has run its course. The entry of March has run its course. The entry of the March lion was like the arrival of a schoolboy late in reaching school because he has loitered on the way. The first day of March was bright and warm but the distribution of the March animal revealed, as the winds blew, the snow fell, and the temperature plunged far below zero. Since then the weather has veered about with mild and cooler temperatures, but little enoughal and some rain. Now in the West facts the low was the weather has veered but with the course of the weather has veered but little enoughal and some rain. Now in the West facts the low out there is active in all show that the lion out there is active in all

#### MARCH

I love the March winds sighing Around my window-pane, Knocking at my shutters, Scolding in the rain,

I love the storm and bluster, The pugilistic pranks, Heaping foam and wave-crest Upon my river's banks.

I love the wild, strange voices When March returns again, Knocking at my shutters, Scolding in the rain.

For under stern exterior, The swirling rain and cold, March hides warm wisps of sunshine, A treasure-heart of gold.

And down there in my garden, With Spring's first chickades, March brings in gay abandon Her crocuses to me!

Mr. Manufacturer:

## Think of your sales

your salesmen could make 1,000,000 calls per day! -or week -or month

Well, newspaper advertising is the super salesman who can get RIGHT INTO the homes of one or two million prospects just whenever you wish!

Newspaper advertising will present your sales exactly as you wish, when you wish and to just the people in the markets where your goods are on sale.

This advertisement was prepared for the Canadian Dully Newspay
Association, by Norris-Patterse, Limited.
